A New Work BY DR. GUNN.-We notice publication from the pen of this celebrated sold to any bank or banker. man entitled, Gunn's New Family Physician or Home Book of Health. From his known honesty and professional skill, such a volume cannot fail to be both useful and entertaining Many who pay from five to fifty dollars a year to doctors, will hail it with delight, as conveying more information at less cost, with the advantage of being always on hand. Many who waste fortunes in running from doctor to doctor for health which drugs cannot give would tere learn that nature can be assisted -not forced. A knowledge of our ownselves, and the causes, symptoms and treatment of those diseases which may assail us, is more important to us than the rise or fall of forty European empires. That our children should be thus informed no one will deny, as this knowledge may be the means of saving health and perhaps life. Should the work appear in this vicinity, we predict a liberal patronage: as the better class of our citizens are convinced that "a stitch in time" &c., or in other words it is safer to know the danger at once, and apply proper remedies than to wait till nature is exhausted and then, "get the doctor." and strength lo a

### Success of the 7-80 Loan.

Our readers will notice that subscriptions to the popular 7-30 Loan are still continued in the most liberal manner. To the Old World the success of these Peoples' Loans is one of the wonders of a Republic. The Government does not seek to borrow in foreign markets; it offers no premiums to bankers, but appeals directly to the people, and, with what success is sufficiently shown by the fact that during forly-three days they subscribed and paid the eash down for one hundred and sixty-one million dollars of the 7-30 Loan. There can be no stronger evidence of public confidence in other stocks have gone down from twenty to fifty, and even a greater per cent. within a few weeks, all forms of U. S. bonds and stocks have remained firm except the slight fluctuations that need incident to all rapid changes in the money market. Our readers will remember that the subscribers to the 7.30 Loan-receive semi-annually interest to the 7.30 Loan-receive semi-annually interest at the rate of seven and three-tenths per cent. per annual in currency, and at the end of three years from June 15th, 1865, they will have the opinion of receiving payment in full, or converting their notes into a 5-20six per cent. gold interest bond. The late decline in the premium on gold makes these notes more desirable than ever as an investment, and it should not be forgotten that their exemption.
